abdominal abscesses, catheter drainage of (*tip*), February, p. 230
abdominal aortic aneurysms, diagnosis of, *March, p. 167
accidents
—motor vehicle, children in (*tip*), February, p. 238
—nuclear, *May, p. 163
acyclovir
—for cytomegalovirus pneumonia (*tip*), June, p. 252
—treatment of herpes zoster with (*tip*), June, p. 224
adolescent breast masses (*tip*), May, p. 278
adolescents
—breast masses in, *February, p. 141
—sexually abused children and (*tip*), May, p. 277
affective disorders, gains made in understanding (*news*), January, p. 259
agranulocytosis due to laetrile (*tip*), April, p. 196
air pollution, indoor, MDs urge attention to consequences of (*news*), February, p. 269
alcoholic parents, physicians receive tips to help children of (*news*), June, p. 278
alcoholics
—benzodiazepines are commonly used by (*med*), April, p. 186
—treatment of gout in (*tip*), April, p. 212
allergic disorders, asthma and other, in pregnancy, *March, p. 187
allergies
—food, tartrazine and (*tip*), June, p. 222
—respiratory, mold in car air conditioners may evoke (*med*), March, p. 215
alpha blocker, inhaled, in asthma (*tip*), February, p. 229
amenorrhea
—delayed menarche and, in college athletes (*tip*), February, p. 240
—lactation (*tip*), June, p. 230
aminophylline, oral, vs. aerosol metaproterenol (*tip*), January, p. 225
amiodarone, antiarrhythmic actions of, *April, p. 178
anaerobic infections in children, diagnosis of, *March, p. 123
aneurysmal compression of the pulmonary artery (*tip*), March, p. 260
aneurysms, abdominal aortic, diagnosis of, *March, p. 167
angina
—variant, exercise testing in (*tip*), February, p. 245
—verapamil vs. propanolol in (*tip*), January, p. 245
angina pectoris
—nifedipine for (*tip*), February, p. 240
—vasotonic, effects of propranolol on (*tip*), May, p. 241
angiography, renal failure after (*tip*), January, p. 245
angioplasty
—percutaneous transluminal coronary (*tip*), June, p. 261
—percutaneous transluminal femoral (*tip*), April, p. 193
antacids, sugar content of (*tip*), January, p. 239
antibiotic, digoxin-, drug interaction (*tip*), February, p. 257
antibiotic prophylaxis in cesarean sections (*tip*), April, p. 194
antibiotics, prophylactic, in pediatric surgery (*tip*), May, p. 270
antidepressant pharmacotherapy, *June, p. 145
antidepressant therapy has a positive effect on seizure control (*med*), June, p. 214
antilipidemic agents appear to stabilize coronary disease (*med*), January, p. 217
antimicrobial therapy, monitoring, *April, p. 136
antimicrobials in renal impairment, *June, p. 201
aorta, coarctation of, late repair of (*tip*), May, p. 259
aortic stenosis, natural history of (*tip*), June, p. 266
aortitis, nonaneurysmal suppurative (*tip*), January, p. 228
aortorenal arterial autografts (*tip*), April, p. 219
apnea, gastroesophageal reflux and (*tip*), February, p. 241
apnea treatment in infants (*tip*), January, p. 241

aorta, coarctation of, late repair of (*tip*), May, p. 259
aortic stenosis, natural history of (*tip*), June, p. 266
aortitis, nonaneurysmal suppurative (*tip*), January, p. 228
aortorenal arterial autografts (*tip*), April, p. 219
apnea, gastroesophageal reflux and (*tip*), February, p. 241
apnea treatment in infants (*tip*), January, p. 241

appendicitis, acute, care (*tip*), April, p. 200
appendix in Crohn's disease (*tip*), June, p. 254
arteritis
—giant cell, inquiry is a key to diagnosing (*med*), January, p. 221
—temporal (*tip*), May, p. 263
artery grafts, internal mammary (*tip*), March, p. 228
arthritic pain, TENS therapy may relieve (*med*), February, p. 223
arthritis
—rheumatoid, gains made in approach to (*news*), May, p. 285
—septic (*tip*), May, p. 258
aspirin's role as a painkiller, comparative look at (*news*), February, p. 263
asthma
—guidelines for hospitalization (*tip*), February, p. 252
—inhaled alpha blocker in (*tip*), February, p. 229
—and other allergic disorders in pregnancy, *March, p. 187
ataxia: nonconvulsive epileptiform etiology (*tip*), May, p. 272
atheroembolism, fatal infarction during bypass is linked to (*med*), June, p. 213
atrial fibrillation, *June, p. 165
autografts, aortorenal arterial (*tip*), April, p. 219

b

baby powder aspiration (*tip*), January, p. 230
Bendectin® and fetal development (*tip*), May, p. 259
benzodiazepines are commonly used by alcoholics (*med*), April, p. 186
benzyl alcohol in parenteral solutions may have toxic potential (*med*), March, p. 211
birth weight, very low, infants with (*tip*), May, p. 276
bladder cancer
—intra-arterial chemotherapy for (*tip*), May, p. 283
—research shows possible predictor of (*news*), January, p. 264
bladder pheochromocytomas (*tip*), May, p. 250
bladder retraining for incontinence (*tip*), January, p. 227
blood flow, impaired, in brain may explain intoxicated state (*med*), March, p. 211
blood gas monitoring, transcutaneous (*tip*), February, p. 253
blood pressure, tobacco chewing raises pulse rate and (*med*), February, p. 225
blood pressure profile with verapamil (*tip*), April, p. 206
bone marrow hemosiderin (*tip*), June, p. 226
bowel edema due to acute mesenteric ischemia, *January, p. 175
BPH, investigators seek etiology of (*news*), June, p. 274
brain metastases, radiation schedules for (*tip*), March, p. 244
brain tumor headaches (*tip*), June, p. 244
brain tumors in the elderly (*tip*), January, p. 228
breast cancer
—early, primary radiotherapy in, *April, p. 113
—'lumpectomy' alone is insufficient for cure of (*med*), May, p. 233
—'medical adrenalectomy' in (*tip*), January, p. 235
—nipple involvement in (*tip*), February, p. 229
—'quadrantectomy' for (*tip*), January, p. 248
breast feeding and infant health (*tip*), June, p. 229
breast masses
—adolescent (*tip*), May, p. 278
—in adolescents, *February, p. 141
bromocriptine in pregnancy (*tip*), May, p. 248
bronchial carcinoma, needle aspiration in (*tip*), March, p. 254
bronchiolitis, lung function after (*tip*), January, p. 249
burn victims, constituent in topical agents may be toxic in (*med*), May, p. 234
bypass, fatal infarction during, is linked to atheroembolism (*med*), June, p. 213

c

caffeine, *March, p. 206
calcitonin (*tip*), January, p. 239
campylobacter, data from inpatient screening for, reported (*med*), April, p. 186
campylobacter enteritis (*tip*), May, p. 272
campylobacter gastroenteritis
—*January, p. 133
—neonatal (*tip*), March, p. 263
cancer
—bladder, intra-arterial chemotherapy for (*tip*), May, p. 283
—bladder, research shows possible predictor of (*news*), January, p. 264

—breast, 'lumpectomy' alone is insufficient for cure of (*med*), May, p. 233
—breast, 'medical adrenalectomy' in (*tip*), January, p. 235
—breast, nipple involvement in (*med*), February, p. 229
—breast, early, primary radiotherapy in, *April, p. 113
—breast, 'quadrantectomy' for (*tip*), January, p. 248
—colon, spectrum of, includes tiny de novo lesions (*med*), April, p. 185
—lung, in butchers (*tip*), June, p. 221
—lung, radiation therapy for (*tip*), April, p. 212
—metastatic colorectal, hepatic resection for (*tip*), May, p. 252
—pancreatic, surgical management of (*tip*), January, p. 242
—pancreatic, treatment of (*tip*), February, p. 232
—skin, microscopically controlled excision of, *May, p. 187
—stress considered a possible factor in production of (*news*), May, p. 286
cancer chemotherapy, predicting response to (*tip*), May, p. 283
cancer patient at risk for psychiatric disorder is profiled (*med*), May, p. 236
captopril, indications for (*info pl*), April, p. 45
car seats for children, *January, p. 167
carbon monoxide poisoning
—(*tip*), February, p. 231
—(*tip*), March, p. 240
carcinoma
—bronchial, needle aspiration in (*tip*), March, p. 254
—esophageal (*tip*), April, p. 211
—obstructive, laser is utilized in radiotherapy of (*med*), March, p. 215
cardiac death, sudden, study reviews (*news*), January, p. 261
cardiac drug overdose, *January, p. 181
cardiac rehabilitation, effects of bed rest on (*tip*), May, p. 266
cardiac sarcolemma changes with exercise (*tip*), January, p. 234
cardiac surgery, 'pre-op' instructions enhance recovery from (*med*), February, p. 223
cardiac therapy, nifedipine receives FDA approval for (*news*), March, p. 268
cardiomyopathy, hypertrophic, complications of verapamil in (*tip*), March, p. 239
cardiovascular system, progestins and (*tip*), June, p. 266
carotid artery disease (*tip*), March, p. 221
carotid stenosis, noninvasive measurement of (*tip*), January, p. 244
CAT scan, new scanner reportedly rivals (*med*), February, p. 225
catheter drainage of abdominal abscesses (*tip*), February, p. 230
C-cell hyperplasia in residual thyroid (*tip*), April, p. 205
cefoxitin and serum creatinine (*tip*), April, p. 216
central nervous system, trichinosis affecting (*tip*), June, p. 240
cephalosporins: bridging the generation gap, *May, p. 177
cerebral ischemia, nonfocal, requires the same attention as TIAs (*med*), June, p. 214
cerebral metastases, sarcoidosis simulating (*tip*), June, p. 246
cerebral resuscitation, comatose near-drowning victims benefit from (*med*), June, p. 216
cesarean delivery, consensus report on (*ed*), February, p. 112
cesarean section(s)
—antibiotic prophylaxis in (*tip*), April, p. 194
—vaginal delivery after (*tip*), May, p. 266
chemotherapy
—cancer, predicting response to (*tip*), May, p. 283
—intra-arterial, for bladder cancer (*tip*), May, p. 283
—for osteosarcoma (*tip*), February, p. 257
—perirectal infections and (*tip*), March, p. 251
chenodeoxycholic acid and gallstones (*tip*), May, p. 256
chest trauma, hemoptysis or arrest may herald air embolism from (*med*), June, p. 213
child abuse, when to suspect, *June, p. 190
children
—and adolescents, sexually abused (*tip*), May, p. 277
—of alcoholic parents, physicians receive tips to help (*news*), June, p. 278
—anaerobic infections in, diagnosis of, *March, p. 123
—head trauma and skull x-rays in (*tip*), June, p. 252
—in motor vehicle accidents (*tip*), February, p. 238
—paronychia in, bacteriology of (*tip*), January, p. 226
—poisoning in, *February, p. 206
chlamydia and pelvic inflammatory disease (*tip*), May, p. 277

chlamydia epidemic (*tip*), January, p. 241
chlamydial infections
—prepubertal (*tip*), January, p. 254
—in women (*tip*), June, p. 240
cholangitis, primary, sphincteroplasty for (*tip*), March, p. 254
cholecystitis, acute, hepatobiliary scans in (*tip*), February, p. 248
cimetidine
—for pruritus of polycythemia vera (*tip*), June, p. 261
—theophylline interaction (*tip*), March, p. 243
—tricyclic antidepressants and (*info pl*), April, p. 50
cimetidine-induced acute renal failure (*tip*), May, p. 242
cirrhosis with septicemia, hypoglycemia in (*tip*), February, p. 230
cirrhotics, propranolol for bleeding in (*tip*), April, p. 207
coagulation screening tests, preoperative (*tip*), May, p. 254
coarctation of the aorta, late repair of (*tip*), May, p. 259
cold exposure, medical problems from, *January, p. 99
colon cancer, spectrum of, includes tiny de novo lesions (*med*), April, p. 185
colonic volvulus, *June, p. 135
colorectal cancer, metastatic, hepatic resection for (*tip*), May, p. 252
compliance, self-esteem and (*tip*), May, p. 278
confidentiality
—and the family physician, *January, p. 141
—patient, in the workplace (*ed*), January, p. 89
congenital toxoplasmosis, prevention of (*tip*), March, p. 263
constipation, treating, *June, p. 139
contact lenses in an unconscious patient (*info pl*), April, p. 48
contraceptives, oral, and risk of infarction (*tip*), January, p. 233
contrast media, excretion of (*tip*), May, p. 266
coronary artery disease, HDL cholesterol and (*tip*), January, p. 234
coronary artery, spasm in (*tip*), April, p. 217
coronary artery thrombosis, prostacyclin for (*tip*), March, p. 243
coronary bypass surgery, considerations for (*tip*), January, p. 235
coronary disease
—antilipidemic agents appear to stabilize (*med*), January, p. 217
—study supports nonsurgical treatment of (*news*), April, p. 224
coronary vasoconstriction from indomethacin (*tip*), March, p. 221
Crohn's disease, appendix in (*tip*), June, p. 254
CSF glucose levels in hypoglycemia (*tip*), June, p. 246
CSF morphine level may explain potency with epidural injection (*med*), April, p. 186
CSF/serum glucose ratio (*tip*), January, p. 239
CT scan, panel sets guidelines for use of (*news*), May, p. 286

d

dehydration, malnutrition and, in breast-fed infants (*tip*), May, p. 264
delivery chairs, obstetric (*tip*), February, p. 261
depressive equivalents in adults, *March, p. 151
developmental levels, parental estimates of (*tip*), June, p. 238
diabetes
—juvenile, limited joint mobility in (*tip*), January, p. 240
—in pregnancy, *May, p. 195
diabetes mellitus, juvenile, *January, p. 193
diabetic adolescents benefit from demanding management (*med*), May, p. 236
diabetic patients, antepartum monitoring of (*tip*), March, p. 232
diabetic syndrome, hyperosmolar nonketotic (*tip*), June, p. 245
diabetic women, pregnancy outcome in (*tip*), April, p. 200
diabetics, young, have a low incidence of retinopathy (*med*), January, p. 217
diagnostic tests, psychologic reassurance of (*tip*), May, p. 262
dialyzed patients, neutrophil response in (*tip*), February, p. 229
diaper dermatitis, *April, p. 127
diet, dispute on low-cholesterol, exaggerated, MD says (*news*), April, p. 223
digitalis, mesenteric vasopasm induced by (*tip*), June, p. 245
digoxin-antibiotic drug interaction (*tip*), February, p. 257
dihydrocodeine for relief of dyspnea (*tip*), May, p. 262
diuretics in the elderly (*ed*), May, p. 111
drug combinations among elderly patients, MDs receive tips on (*news*), February, p. 267

drug overdose, cardiac, *January, p. 181
drugs
—in pregnancy (*tip*), May, p. 272
—smoking, and pregnancy (*tip*), January, p. 248
dysfunctional uterine bleeding, *March, p. 109
dyspnea, dihydrocodeine for relief of (*tip*), May, p. 262

e

echocardiography in patients with stroke (*ed*), March, p. 95
elderly
—brain tumors in (*tip*), January, p. 228
—diagnosing organic mental disorders in, *May, p. 139
—diuretics in (*ed*), May, p. 111
—gallbladder surgery in (*tip*), June, p. 230
—gastrointestinal bleeding in (*tip*), March, p. 222
—hypochondriasis in, *February, p. 199
—study verifies high risk of iatrogenic illness in (*med*), May, p. 234
elderly patients
—MDs receive tips on drug combinations among (*news*), February, p. 267
—with renal failure, hemodialysis benefits (*med*), February, p. 224
electrical stimulation for scoliosis, *April, p. 155
embolism, air, hemoptysis or arrest may herald, from chest trauma (*med*), June, p. 213
employment is pertinent in a teenager's social history (*med*), January, p. 216
empyema (*tip*), April, p. 196
endocarditis
—pacemaker-induced (*tip*), April, p. 199
—risk of, is considerable with mitral prolapse (*med*), February, p. 224
endometriosis, leg pain from, may mimic radicular pain (*med*), June, p. 213
enuresis, *May, p. 203
esophageal carcinoma (*tip*), April, p. 211
esophageal response to cold liquids (*tip*), March, p. 221
estriol determinations, urinary (*tip*), May, p. 241
estrogen replacement therapy
—(*tip*), February, p. 239
—*June, p. 183
ethanol, terbutaline vs., for inhibiting labor (*tip*), May, p. 241
exercise
—cardiac sarcolemma changes with (*tip*), January, p. 234
—left ventricular function during (*tip*), June, p. 221
—after myocardial infarction (*tip*), January, p. 227
exercise testing
—postmyocardial infarction (*ed*), May, p. 108
—in variant angina (*tip*), February, p. 245

f

family planning, natural (*tip*), January, p. 232
family therapy, brief, utilizing graph analysis, *February, p. 183
Feingold diet ineffective for hyperkinesis, study says (*news*), March, p. 267
female sex hormones and teratogenesis (*tip*), April, p. 217
fetal alcohol syndrome (*tip*), February, p. 256
fetal development, Bendectin® and (*tip*), May, p. 259
fetal femur length and gestational age, *April, p. 165
fetal intrapartum arrhythmias, *March, p. 137
fetal monitoring, review of pros, cons of (*news*), February, p. 266
fetuses of women with PKU, extra care needed for (*news*), April, p. 227
fever, childhood, of undetermined origin (*tip*), January, p. 240
fibromyalgia, primary, *May, p. 115
formaldehyde poisoning (*tip*), January, p. 233

g

gallbladder surgery in the elderly (*tip*), June, p. 230
gallstones
—chenodeoxycholic acid and (*tip*), May, p. 256
—drug dissolution of, *January, p. 202
gastroesophageal reflux
—and apnea (*tip*), February, p. 241
—in infancy and childhood (*tip*), June, p. 260
gastrointestinal bleeding
—in the elderly (*tip*), March, p. 222
—radionuclide detection of, *February, p. 191
gastrointestinal parasites
—part I. protozoal infections, *April, p. 170

—part II. helminthic infections, *May, p. 216
genetic abnormalities, maternal age and (*tip*), February, p. 231
genital herpes, scabies and: a problem in management, *January, p. 125
gestational age, fetal femur length and, *April, p. 165
giant cell arteritis, inquiry is a key to diagnosing (*med*), January, p. 221
glucose concentrations in parotid fluid (*tip*), February, p. 246
gout
—joint aspiration and (*info pl*), April, p. 45
—treatment of, in alcoholics (*tip*), April, p. 212
graft infection, radioactive leukocytes pinpoint focus of (*med*), February, p. 224
gravid uterus, acute renal failure caused by (*tip*), February, p. 258
growth acceleration after renal transplantation (*tip*), January, p. 242
gums, strawberry (*tip*), April, p. 206

h

hairy cell leukemia
—(*tip*), June, p. 246
—in father and son (*tip*), March, p. 258
hard palate, ulceration of (*tip*), May, p. 247
HDL cholesterol and coronary artery disease (*tip*), January, p. 234
head trauma and skull x-rays in children (*tip*), June, p. 252
headache(s)
—brain tumor (*tip*), June, p. 244
—migraine, drug treatment of, *May, p. 228
—vascular, prostaglandins and (*tip*), June, p. 223
headache syndromes, neurophthalmologic signs in, *March, p. 99
heart, mammalian, role of taurine in (*tip*), March, p. 260
heart disease
—congenital, diagnosis of (*tip*), March, p. 230
—congenital, prostaglandin E_1 in (*tip*), March, p. 244
—Framingham study finds proteinuria may signify (*med*), February, p. 225
heart rate, effects of age on (*tip*), April, p. 207
helminthic infections, gastrointestinal parasites: part II, *May, p. 216
hemodialysis
—benefits elderly patients with renal failure (*med*), February, p. 224
—exercise: good therapy for some patients who undergo (*news*), January, p. 260
—guidelines for (*tip*), March, p. 248
hemoptysis or arrest may herald air embolism from chest trauma (*med*), June, p. 213
hemosiderin, bone marrow (*tip*), June, p. 226
heparin
—hypoaldosteronism induced by (*tip*), February, p. 246
—and paradoxical thromboembolism (*tip*), April, p. 199
hepatic encephalopathy, pathogenesis of (*tip*), February, p. 237
hepatic resection for metastatic colorectal cancer (*tip*), May, p. 252
hepatic schistosomiasis, splenorenal shunts for (*tip*), March, p. 248
hepatitis, immune globulin prophylaxis against (*tip*), May, p. 263
hepatitis A, prophylaxis for, *March, p. 129
hepatitis B infection in chronic skin disease (*tip*), June, p. 242
hepatobiliary scans in acute cholecystitis (*tip*), February, p. 248
hepatorenal syndrome, *June, p. 127
herniation, traumatic diaphragmatic (*tip*), June, p. 258
herpes zoster, treatment of, with acyclovir (*tip*), June, p. 224
hip, congenital dislocation of, *June p. 175
hip or pelvis fractures, a sign for detecting (*tip*), June, p. 224
homosexual men
—probable link found for Kaposi's sarcoma among (*news*), January, p. 261
—venereal diseases in (*tip*), January, p. 230
hyperalimentation
—and respiratory failure (*tip*), March, p. 234
—through the saphenous vein (*tip*), June, p. 265
hypercalcemia, hypertension with (*tip*), May, p. 248
hyperlipidemia, MD gives overview of (*news*), May, p. 293
hyperosmolar nonketotic diabetic syndrome (*tip*), June, p. 245
hyperparathyroid crisis (*tip*), April, p. 191

hyperparathyroidism, asymptomatic, management of (*tip*), June, p. 242
hypertension
—borderline, adrenergic responsiveness in (*tip*), May, p. 268
—with hypercalcemia (*tip*), May, p. 248
—pulmonary, pain of (*tip*), February, p. 247
—systolic, isolated (*tip*), June, p. 268
hypertensive patients, report gives steps to dietary management of (*news*), March, p. 268
hypoaldosteronism induced by heparin (*tip*), February, p. 246
hypochondriasis in the elderly, *February, p. 199
hypoglycemia
—CSF glucose levels in (*tip*), June, p. 246
—in cirrhosis with septicemia (*tip*), February, p. 230
hypothyroidism
—congenital, better marker for, may be free T_4 (*med*), June, p. 216
—after thyroidectomy (*tip*), April, p. 210

i

iatrogenic illness in the elderly, study verifies high risk of (*med*), May, p. 234
in vitro fertilization: an update (*ed*), February, p. 115
incontinence, bladder retraining for (*tip*), January, p. 227
indomethacin
—coronary vasoconstriction from (*tip*), March, p. 221
—effects of, on intestinal tumors (*tip*), March, p. 256
—triamterene plus, renal failure from (*tip*), June, p. 223
infants
—apnea treatment in (*tip*), January, p. 241
—breast-fed, malnutrition and dehydration in (*tip*), May, p. 264
—premature, human milk for (*tip*), March, p. 239
—show wide pharmacokinetic response to theophylline (*med*), May, p. 233
—with very low birth weight (*tip*), May, p. 276
infant health, breast feeding and (*tip*), June, p. 229
infarction
—fatal, during bypass is linked to atheroembolism (*med*), June, p. 213

Kaposi's sarcoma, probable link found for, among homosexual men (*news*), January, p. 261
knee injuries, acute, evaluating, *February, p. 122

l

lactation amenorrhea (*tip*), June, p. 230
lactation, pregnancy and, psychotropic drugs in (*tip*), June, p. 244
laetrile, agranulocytosis due to (*tip*), April, p. 196
laryngoedema following radiation therapy (*tip*), May, p. 252
laser is utilized in radiotherapy of obstructive carcinoma (*med*), March, p. 215

learning disorders, study isolates risk factors for (*news*), April, p. 220
leg pain from endometriosis may mimic radicular pain (*med*), June, p. 213
leg ulcers, venous stasis (*tip*), April, p. 216
leukemia
—acute, occult disease in (*tip*), April, p. 191
—hairy cell (*tip*), June, p. 246
—hairy cell, in father and son (*tip*), March, p. 258
leukocytes, radioactive, pinpoint focus of graft infection (*med*), February, p. 224
leukocytosis, steroid-induced (*tip*), March, p. 230
leukotrienes, prostacyclin, thromboxane and (*ed*), June, p. 99
liver disease, polycystic (*tip*), January, p. 253
liver dysfunction, thyroid disease and (*tip*), April, p. 214
liver function, altered, in sepsis (*tip*), June, p. 261
liver transplantation, orthotopic (*tip*), March, p. 236
lumbar puncture, meningitis after (*tip*), February, p. 232
lumpectomy alone is insufficient for cure of breast cancer (*med*), May, p. 233
lung cancer
—in butchers (*tip*), June, p. 221
—radiation therapy for (*tip*), April, p. 212
lung disease, chronic, steroids in (*tip*), May, p. 256
lung function after bronchiolitis (*tip*), January, p. 249
Lyme disease, *June, p. 121
lymphoid hypophysitis (*tip*), February, p. 245

m

Mallory-Weiss syndrome (*tip*), April, p. 205
malnutrition
—and dehydration in breast-fed infants (*tip*), May, p. 264
—intestinal bacterial overgrowth is linked to (*med*), April, p. 185
marijuana, psychiatrist gives update on effects of (*news*), February, p. 268
maternal age and genetic abnormalities (*tip*), February, p. 231
mediastinal metastases, x-ray criteria developed to predict (*med*), January, p. 216
medical adrenalectomy in breast cancer (*tip*), January, p. 235
medical care, patients rank important aspects of (*med*), March, p. 216
menarche, delayed, and amenorrhea in college athletes (*tip*), February, p. 240
meningiomas, steroid receptors in (*tip*), May, p. 258
meningitis after lumbar puncture (*tip*), February, p. 232
meningococcal infections, complications of (*tip*), March, p. 258
menses, neutrophil activity decreases during (*med*), May, p. 234
mental disorders, organic, diagnosing, in the elderly, *May, p. 139
mesenteric ischemia, acute, bowel edema due to, *January, p. 175
mesenteric vasospasm induced by digitalis (*tip*), June, p. 245
metaproterenol, aerosol, oral aminophylline vs. (*tip*), January, p. 225
metoprolol is effective in treating essential tremor (*med*), June, p. 214
migraine headache, drug treatment of, *May, p. 228
mitral valve prolapse
—(*tip*), June, p. 226
—in pregnancy (*tip*), January, p. 253
—risk of endocarditis is considerable with (*med*), February, p. 224
mold in car air conditioners may evoke respiratory allergies (*med*), March, p. 215
morphine level, CSF, may explain potency with epidural injection (*med*), April, p. 186
motor vehicle accidents, children in (*tip*), February, p. 238
multiple sclerosis, intrathecal interferon in (*tip*), April, p. 192
myocardial infarction
—exercise after (*tip*), January, p. 227
—intracoronary streptokinase in (*tip*), February, p. 241
—psychologic sequelae of, *May, p. 209

n

naloxone and TRH in shock (*tip*), January, p. 254

pelvic inflammatory disease, chlamydia and (*tip*), May, p. 277
pelvis fractures, hip or, a sign for detecting (*tip*), June, p. 224
peptic ulcer disease, tricyclics in (*tip*), June, p. 238
percutaneous transluminal angioplasty (*tip*), March, p. 256
perirectal infections and chemotherapy (*tip*), March, p. 251
peritoneal dialysis, psoriasis responds to (*med*), February, p. 223
pheochromocytomas, bladder (*tip*), May, p. 250
piroxicam—a new drug (*tip*), June, p. 224
pituitary adenomas, ectopic (*tip*), April, p. 214
PKU, extra care needed for fetuses of women with (*news*), April, p. 227
PKU children, treated, intelligence in (*tip*), January, p. 254
placental separation (*tip*), January, p. 233
plague (*tip*), April, p. 207
platelet transfusion in TTP (*tip*), March, p. 262
pneumococcal vaccine recommendations (*tip*), May, p. 268
pneumonia, cytomegalovirus, acyclovir for (*tip*), June, p. 252
pneumothorax
—and intraventricular hemorrhage (*tip*), June, p. 221
—tension, *May, p. 149
podiatry, office, *March, p. 141
polycythemia vera, cimetidine for pruritus of (*tip*), June, p. 261
poisoning(s)
—carbon monoxide (*tip*), February, p. 231; (*tip*), March, p. 240
—in children, *February, p. 206
—formaldehyde (*tip*), January, p. 233
population growth, concern about (*news*), June, p. 285
postmyocardial infarction exercise testing (*ed*), May, p. 108
postpartum bleeding, ultrasound in (*tip*), January, p. 225
postpartum toxic shock syndrome (*tip*), February, p. 248
pregnancy
—asthma and other allergic disorders in, *March, p. 187
—bromocriptine in (*tip*), May, p. 248
—diabetes in, *May, p. 195
—drugs in (*tip*), May, p. 272
—and lactation, psychotropic drugs in (*tip*), June, p. 244
—mitral valve prolapse in (*tip*), January, p. 253
—outcome in diabetic women (*tip*), April, p. 200
—smoking, drugs and (*tip*), January, p. 248

premature infants, human milk for (*tip*), March, p. 239
prenatal diagnosis (*tip*), February, p. 246
pressure ulcerations, *February, p. 171
progestins and the cardiovascular system (*tip*), June, p. 266
propranolol
—for bleeding in cirrhotics (*tip*), April, p. 207
—effects of, on vasotonic angina pectoris (*tip*), May, p. 241
—verapamil vs., in angina (*tip*), January, p. 245
propranolol's antihypertensive effect is relatively prompt (*med*), May, p. 233
prostacyclin
—for coronary artery thrombosis (*tip*), March, p. 243
—thromboxane and leukotrienes (*ed*), June, p. 99
prostaglandin E_1 in congenital heart disease (*tip*), March, p. 244
prostaglandins and vascular headache (*tip*), June, p. 223
proteinuria may signify heart disease, Framingham study finds (*med*), February, p. 225
protozoal infections, gastrointestinal parasites: part I, *April, p. 170
prune-belly syndrome, *May, p. 125
pruritus of polycythemia vera, cimetidine for (*tip*), June, p. 261
pseudoanemia in marathon runners (*tip*), January, p. 255
pseudocyst, pancreatic abscess vs. (*tip*), February, p. 260
psoriasis responds to peritoneal dialysis (*med*), February, p. 223
psychologic reassurance of diagnostic tests (*tip*), May, p. 262
psychotropic drugs in pregnancy and lactation (*tip*), June, p. 244
pulmonary artery, aneurysmal compression of (*tip*), March, p. 260
pulmonary brushing and washing, transtracheal (*tip*), June, p. 253
pulmonary emboli, diagnosis of, by angioscopy (*tip*), March, p. 222
pulmonary embolism, chronic, prevalent signs of, are reported (*med*), January, p. 216
pulmonary hypertension, pain of (*tip*), February, p. 247
pulmonary infarction, *February, p. 149
pulse rate and blood pressure, tobacco chewing raises (*med*), February, p. 225
